PROFILE

Combining a solid foundation in Computer Engineering from Kocaeli University with over 10 years of professional full-stack development experience, I engineer scalable, high-performance, and sustainable web applications. I possess deep, end-to-end expertise across the entire product lifecycle from server architecture and database design to backend services and modern frontend interfaces. Adept at both driving solo initiatives and leading large-scale teams through technical transformations and training processes, I am an analytically-driven Technical Lead committed to delivering robust engineering solutions.

EXPERIENCES

Beeasist | Full-Stack Engineer

İstanbul, Türkiye | 09.2024 - Devam Ediyor

- Managed the architectural design, AI, backend, and frontend processes of a high-traffic SaaS CRM platform (beeasist.com) for appointment-based businesses.
- Engineered a custom MCP infrastructure using Laravel, integrating Prisma PHP and Vercel AI SDK to deploy an advanced workflow-automating AI Assistant.
- Developed a highly concurrent appointment optimization architecture supporting multi-branch, staff, and dynamic calendar management.
- Built financial tracking, reporting modules, and online payment integrations from scratch using REST APIs.
- Developed web and mobile apps using Next.js, React, and Tailwind CSS, leveraging RTK for robust, centralized state management.
- Optimized Laravel backend using PostgreSQL and Redis queues to handle high traffic spikes and ensure asynchronous notification processing (Push, SMS, Email, WhatsApp).
- Integrated Sentry for production monitoring, bottleneck discovery, and proactive error resolution to boost uptime.

Akinon

İstanbul, Türkiye | 11.2019 - 09.2024 (4 years 11 months)

- Frontend Team Lead (01.2021 - 09.2024):** Led the frontend development team on large-scale and high-traffic e-commerce platforms. Played an active role in making architectural decisions and improving code quality. Responsible for hiring new team members, technical training, and process management.
- Frontend Developer (11.2019 - 01.2021):** Actively used Next.js and the modern JavaScript ecosystem to develop SEO-friendly, high-performance, and reusable UI components for global and local brands.

MpsMobile GmbH | Full-stack developer

İstanbul, Türkiye | 12.2017 - 08.2019 (1 year 9 months)

- Managed the end-to-end design, planning, management, and development processes of new e-commerce and CRM projects using HTML, CSS, PHP, Yii2, React.js, and React Native.
- Led the knowledge transfer, integration, and technical adaptation processes of newly developed technologies to the legacy team in Germany.
- Undertook the installation, security, management, and periodic maintenance of enterprise Debian servers utilizing Apache, ISPConfig, and MariaDB.

Full-Stack Developer

- Developed comprehensive web administration panels and dynamic user interfaces using PHP (Yii), HTML, CSS, JavaScript, jQuery, and Metronic.
 - Designed, built, and managed secure, high-performance RESTful APIs (JSON) and relational MySQL/MariaDB database architectures.
 - Undertook the deployment, security, management, and periodic maintenance of enterprise Linux/Debian servers utilizing Apache and MariaDB.
 - Played an active role in early-stage full-stack development, server management, and production maintenance workflows while completing my engineering degree.
-

ADDITIONAL INFORMATION

- **Skills:**
 - Artificial Intelligence (AI): Model Context Protocol (MCP), Laravel MCP, Prisma PHP, Vercel AI SDK, LLM Integrations, AI Agent Development.
 - Backend & Architecture: PHP, Laravel (Octane / FrankenPHP), Yii / Yii2, Object-Oriented Programming (OOP), REST APIs, Micro-frontend Orchestration, Database Design.
 - Frontend & State Management: JavaScript, TypeScript, React.js, Next.js, Redux Toolkit (RTK), HTML5 & CSS3, Tailwind CSS, Responsive Design.
 - Infrastructure, DevOps & Tools: Docker, Nixpacks, Coolify, Traefik, Server Management (Debian, Apache, ISPConfig), PostgreSQL, MySQL, Redis (Queue Management), Git, GitHub, GitLab, Sentry.
- **Languages:** Turkish (Native), English (Professional Working)
- **Education:** Kocaeli University Computer Engineering(2017)
